### PROFESSIONAL SUMMARY

Remote-first IT professional who translates complex requirements into reliable AWS and web solutions while keeping stakeholders aligned. I blend strong communication, rapid learning, and a proactive, can-do attitude with disciplined, customer-centric work habits so hybrid teams can move quickly without sacrificing quality or compliance.

### KEY ACHIEVEMENTS

- Championed a modular serverless workflow that reduced deployment lead time and improved observability for healthcare-focused pilots.
- Led a cross-functional MVP launch of MedTrack, capturing actionable insights that drove adoption across clinical stakeholders.

### PROFESSIONAL EXPERIENCE

#### AWS Cloud Intern

Smart Bridge / Amazon Web Services • May 2025 – Aug 2025

Cloud Infrastructure · Automation · Observability

- Provisioned secure, scalable resources using EC2, S3, and CloudFormation templates, ensuring performance under load.
- Automated API-driven data workflows with Lambda, API Gateway, and DynamoDB to cut manual intervention.
- Monitored availability, costs, and permissions via CloudWatch dashboards and IAM governance.

### PROJECT EXPERIENCE

#### Project Lead – MedTrack

Cloud-Enabled Healthcare System • 2024 – 2025

Product Strategy · UX · Flask · AWS

- Directed a team of developers and clinicians to build a compliant care coordination portal.

- Crafted responsive UI patterns with HTML5/CSS3 and componentized styling that simplified future iterations.
- Engineered backend services and role-aware authentication in Flask to safeguard patient data.
- Optimized appointment scheduling flows, leading to measurable engagement and throughput wins.
